Planes to Elwood Mead Pleads for Action to Protect Imperial Valley; Johnson Hurls Charges

BY EYLE D. PALMER

"Times" Staff Correspondent
WASHINGTON, Feb. 2. (Exclusive)—Although having perceptible effect on the chances for and against adoption of the Swing-Johnson bill at this session of Congress, developments directly related to Colorado River legislation were numerous here today. President Coolidge sent a communication to the Senate recommending favorable consideration of a pro-posal to negotiate a treaty with Mexico establishing the rights of the two nations to the use of the waters of the Rio Grande

River and the Colorado River.
Dr. Elwood Mead, Commissioner offReclamation, urged immediate action
on the Swing-Johnson bill, asserting

THE attractive feature of this new plan is its simplicity. One price covers everything from detailed plan to completed home.

To illustrate, let us construct an "imaginary" house for you. We will say you own all or have a satisfactory equity in a well-located lot.

This is your down payment. No cash required. First, you are invited to our office to thoroughly inspect one of the most complete series of unusual plans developed by leading architects of Southern California. One of these numerous plans may be just what you want . . . an English, Spanish, French Norman or Italian home of the very latest type. If not, after a discussion of your requirements, our architects develop an exterior and floor plan, incorporating your ideas.

When these plans are satisfactory, a price is quoted. This price covers everything. There are no extra fees, bonus, financing charges or other costs. After plans and specifications are approved, construction begins. Moderate monthly payments do not commence until you have moved in.

Although Carl August Prederich Wilhelm Von Wollen-Weber, who acts as accretary of the Seraphs when he is not too busy with his real estate holdings, says that sweything is all right and that the Angel players are astisfied with their contracts, it is known that "Oli" Hamilton, who was the Cherubs' leading pitcher last year; Art Jahn, slugging outfielder; Dick Cox, who comes to the Angels from Brooktyn, and Bill Piercy, a hurler obtained from the Chicago Cubs, would like and intend to ask for more money than their present contracts call for.

And despite the fact that the Bollywood contracts didn't ge out until yesterday, it is russored in haseball circles that Frank "Lefty" O'Doul, who was the best hitter the Stars had last year, is also a member of the holdout brigade. It is understood that Bill Lane didn't fike the prima-doann antics of O'Doul hat season and cut the slugging outfielder's misry, O'Doul's home is in San Francisco and that's where he would like to play. Lane tried to peddle Lefty to the Musions at the league meeting in Hollywood last month, but the deal felt through. New it is hinted that the Seals may get O'Doul provided the Stars get another outfielder that is premised them by a major-league citib.

bygones, but the Alabama football fans haven't forgotten the famous crack by Erals Nevers that Stanford would make a "track meet" out of the New Year's Day game. A gentleman who signs himself J. E. Morris and claims he lived in Los Angeles back in 1908 and sang at the old Burbank Theater on Main street, has malled a clipping from the Birmingham News. In it "Pop" Warner is quoted as saying that he thought both Stanford and Alabama got a raw deal from the newspaper critics who wrote reams about the poor football and poor game. "Pop" goes on to say: "I saw the Army-Navy game and in my mind I am antisfied Alabama could have beaten either one of them. You had the best line I believe I have ever seen play, and your team was the only one that came anywhere near stopping our running plays all season."

Brother Morris wants the clipping sent to Erale Nevers. He mailed it to the sponsor of this column because he didn't know where to catch Ernle and wrote as follows: "Inclosed find a clipping from Birmingham News. I want it sent to Ernle Nevers and again congratulate him on his famous 'track meet.' I didn't know where to address him. Will you please forward this clipping the sent of the condition of the him on his famous 'track meet.' I didn't know where to sedress him. Will you please forward this clipping the sent regards and be cure Ernle sees the clipping."

There is no doubt about Ace Hudkins being an improved pulverizer and boxer as well. Those who saw him twice floor Billy Alger at the Olympic Auditorium Tuesday night can attest to both facts. The extra weight in his legs adds force and wallop to his blows, and instead of lashing he punches straight and true. Alger's trips to the canvas are said to be the first in his ring career.

Young Lee Owens, aged 9, saw his first fight the other night. It was the Hudkins-Alger imbrogilo. "Well what did you think of it?" he asked his proud parent, Charles Hamilton Owens, who earns his bread and butter by drawing hypsographic maps and making brilliant layouts for hum editors so they can hold their jobs. "Well, pop," said young Lee, as he meditated on the situation. "It was like I thought it would be except they fought about ten times as fast. I kinda thought they'd stand od and go slower. Bay, I couldn't keep track of the punches." Such is the sweet innocemce of youth. Lee will have his criginal ideas year-alized some day when he toes a couple of truck drivers lumbering around the ring under the gaine of heavyweight fighters.

TO ERECT TABLET TO GEORGE YOUNG

A bronse tablet, bearing a likeness of George Young, together with details of his victory in the Catalina Channel swim, is to be dedicated with appropriate ceremonies at the site of the new Miramout Club, at the foot of Palos Verdes, on March 6. Young was the thind internationally known aport character to perform on the Miramout grounds, when he won the sitoo offered by T. D. and E. A. Earter, organisers of the club, for the winner to land on the club property. Susagne Lenglen had dedicated the tennis courts, and Babe Ruth the athletic field.

Psychology Golf Class

BY AL DEMARES

(Former Pitcher New York Giants)

Psychology used either consciously or unconsciously is a big factor in any sport and in golf Hagen is its greatest emponent.

In the 1836 F.G.A. at the Clympis Pields (III.) Country Club the redoubtable Waiter gave a clever example of its application.

His opponent that day was Lac Diegel. They were halving hole after hole. Diegel was laying his approach putts dead to the cup and Hagen was conceding him his abort putts.

On the escenteenth green Lac had his usual foot and a half putt left for a par. He started to pick up his ball as waiter had conceded him these short putts all afternoon, when Hagen stopped him.

"I'm corry, Lac," he said, "but there's a little roll on the green between you and the cup and I'll have to ask you to sink that one!"

Diegel, half irritated and angry, hurried his putt and missed. This was the turning point of the match, as Diegel was fighting himself the rest of the day.

Defeat Globes

Picked by the California Professional Hockey Association to meet the Detroit "Millionairea," who are en route to this city, in the first game of a five-game scries with the local pro teams, the Winter Gardan Maroona clash with the powerful Globe Ine Grean boys tonight at the Winter Garden rink.

Anxions to live up to the hance of meeting the invading equad first, the Maroons are out to stop the rush of the Globes tonight and particularly star forward, "Bullet" Coupez. If they can stop Coupes, the Maroons can chalk up a win.

Globe and the Maroons have played two overtime games to date. The two squads appear to be evenly matched, but the Maroon goal tending has been bad in the past. Manager Sears, however, sent for Charley Mayo from Niagara Falls last week and the northern player is ready to go tonight. If Mayo can play any way near his record, the Maroons should give the Globe team a battle.

PERSON can't help feeling

PERSON can't help feeling sorry for George Young. There is no doubt in the world but that the youthful channel swimmer has participated in the world's greatest financied in the world in the first financied in the first break with his friend, Bill Hastings, he pulls out for San Francisco on another handshaking expedition, leaving his mother to do her little bit toward further snarling up the situation when she arrived here, bewidered and suspicious of everybody.

Young should have had four times as much money in the bank right now as he has. His manager is a good guy who doesn't know anything-about showmanship and he and the youngster have just pulled one bood after another, with Young's mother and his former cach arriving just in time to make the situation worse—if possible. William Wrigley, Jr., did the boy one good turn, anyhow, when he grabbed that \$25,000 and sewed it up in a trust fund that nobody could get away from him for the next twenty-three years. When we think what a really smart guy could have done with Young's opportunity it makes us sick.

Charley Pyle is not our idea of Santa Claus. There are a lot of things about Charley that don't tend to make him popular but when you take a comparison of what Fyle has been able to do with Grange and the sad case of George Young you can't help believing that somebody like Brother's fight hand busy signing contracts instead of shaking hands with Jesse Lasky, Eddie Canier, et al., would have been a Big improvement. Pyle new bothers to make himself popular.

There is nothing quite so fleeting as fames. Pyle knew the additional makes the standing as fames. Pyle knew the standing as fames.

...

There is nothing quite so fleeting as fame. Fyle knew it and he rushed Grange to New York a couple of days after he had turned grofessional and had more money in the bank for both of them inside of a week than George Young will ever have. We always thought that Fyle's crowning achievement consisted in getting something like #10,000 for "Red" indorsement of a certain eigarette despite Red"s well-known total abstinence from smoking. "Red" just said that if he did smoke he felt sure that he would have liked that kind of a cigarette.

An accident to Freddy Voids, sma-teur motorcycle champion, yesterday was another feature of the prepara-tery work for the speed program booked by Fromoters Macdougall and Lutz. Voids was making "desth turn" at high speed when he went into a skid that isnded him under the top rail with a demolished ma-chine on top of him and two hadly sprained wrists that will keep him out of the twenty-five-lap events that has been added to the day's pro-gram.

Kenealy Will Pilot Car in Holiday Race

Entry was assured yesterday of two more famous cars for the Los Angeles grand prix road race to be held at Palisades Del Rey, Idnooln's Birthday, the 12th inst.

Harry Hooles's special number 99 has been entered by a Hollywood film luminary. It has been entrely rebuilt and will turn well over 100 miles an hour. Mel Kenealy behind the wheel won fourteen straight races.

C. C. Ballinger has entered his Rajo special, which Francis Quinn will pilot. Quinn won the 100-mile dire championship in this car and it is capable of going 102 miles an hour. The course, which covers some 300 acres at Palisades Del Rey, is now nearing completion and it is expected that it will be ready for the try-outs by Saturday. This will be the first real road race run in Bouthern California since 1915, when its last play.

sty of California at Los Angeles will feature the week-end Southern California Conference basketball program. As the game is a home contest for the Bruins, the tilt will be staged in the Hollywood High School gymna-sium.

Two other games are on tap with Fomona playing Calised on its own sourt. Whittier and Redlands blash in a return tilt at Redlands. The Sagehans and strong Foet quintess will be favored to win. Although the Sagehans started out rather poorly, they have been showing up to better advantage in each successive game.

Ceach Eddle Klenholz, who guides the destiny of basketball at the Tiger institution, believes he has at last found a combination equal to giving the Bruins a battle. Neil Archer's expert passing and dribbling has given the Bengals an added punch. That together with the greatly improved work of Capt. Soily Mishita and Ted Elisworth has given the Eagle Book cagers a new lease on life. Ony still has an outside chance to tie for the championship having lost only one game and that to the Bruins.

The volume of gas averaged approximately 1,800,000 to 2,000,000 cubic feet a day under pressures of 300 to 600 pounds.

The Union was the first to detect any difference in the output of neighboring wells, and several months ago reported that the production of two or three wells had shown a substantial increase, which was attributed to the gas experiment.

The Shell company reported no change in the status of any of the wells in the vicinity of the test until a few days ago, when it was noted that two neighboring wells were not showing its normal rate of decline displayed by other projects in the fail. American Traveler Gets First Republic of Swanetia Photographs

F OR the first time in history, the people of the little republic of Swanetia and the rugged country within its mountain boundaries, have been photographed. William Stix Wasserman of Philadelphia, a geologist, together a wife, penetrated the bleak Caucasus Mountains last summer and visited the Swanetians, previously believed to be inhospitable and savage. Swanetia lies in a mountain valley high on the south slope of the Caucasus, and a population of some 12,000 souls, who claim descendancy from the Chaldeans, and live practically the same life that their forefathers lived a thousand years ago. They are a big, olive-skinned people, physically robust sembling in type the ancient Greeks. The Americans found them intelligent and hospitable, but little concerned as to the rest of the world. Swanetia may be reached only six weeks of the year. Exclusive photos on this peopyrighted by W. S. Wasserman and released through P. & A Photos.

The Endless Miracle of California"

rafters of their home."—JOHN STEVEN MCGROARTY
in "The Endless Miracle of California"

OU HAVE sometimes stood in the sheltered clasp of California's hills, with the tang of the sea in the air and rural loveliness all about you, and you have wanted to build a home thereto make California's natural beauty and peace and charm a part of your daily life.

But practical considerations—lack of conveniences, congenial neighbors, opportunity for recreation and social intercourse—have kept you in the shadow of the city's confusion. Only the very wealthy have been able to build country estates large enough and self-sufficient enough to present a semblance of what modern successful people demand in surroundings.

Rancho Santa Fe has changed all this. Here in the very heart of California's broad areas of beauty and romance—30 miles north of San Diego—a subsidiary of the Santa Fe Railway is creating a community of income-producing country estates.

Land is offered in various-sized units, to suit your investment desires. Purchase prices are low, but every purchaser is required immediately to plant citrus or subtropical fruits, the first purpose of the project being to create tonnage for the Santa Fe Railway.

Planting and care will be undertaken by a qualified organization if desired. Architecture of homes must conform to established artistic standards. An architectural staff has searched the Latin countries of the world for charming bits of authentic detail to embellish Rancho Santa Fe homes. Many quaint and appealing examples are already found in the Guest House and other buildings of Community Center.

All units in the 9000-acre project go forward in development together. You can not have an idle neighbor speculating on your investment. Over \$4,000,000 has already been spent in development and \$10,000,000 will have been spent within a few years.

As income-producing horticultural acreage, Rancho Santa Fe will satisfy the most cautious business mind. And as a place to "rear the rafters of your home", natural conditions of climate and topography and wise restrictions of architecture and landscaping present a well-nigh irresistible appeal to all who crave the soul-satisfying character of rural life.

A copy of "The Endless Miracle of California" by John Steven McGroarty, telling the romantic story of Rancho Santa Fe, will be sent on request. Just fill in the coupon and mail to

inations: \$1000 and \$500.

Due: March 1, 1977

Purpose of Issue: Issued to provide the Company with funds for redemption of outstanding First and Refunding Mortgage 6% Bonds; for the redemption of the Company's 6% Notes issued to the United States Government; and for the payment of its 5% Secured Notes maturing on July 1, 1927, making a total refunding of \$89,331,000; also to reimburse the Treasury of the Company for capital expenditures heretofore made; and to provide for the Company's improvement program for 1927. By refunding of its outstanding 6% bonds and notes by issuance of new 5% bonds, the Company will materially reduce its annual interest charges.

Security: The First and Refunding Mortgage Bonds are secured by a first lien on 3883 miles of railroad, together with valuable terminal properties, desits and bridges, and are subject to \$125,176,000 prior liens on various parts of the system. After giving effect to this financing, there will be outstanding in the hands of the public, \$112,841,000 First and Refunding Mortgage 5% Bonds, or at the rate of \$12,355 per mile on 3383 miles of railroad, on which the bonds are a first lien. The \$128,016,000 principal amount, or at the rate of \$35,345 per mile on 6734 miles of railroad, subject to mortgage, without making any allowance for other valuable property in which they are a lien.

In addition to its directly owned lines, the Company owns 8734% of the stock of the New Orleans, Texas and Mexico Railway Company, which is pledged to secure 813,186,000 principal amount of the Company's 51/4% Secured Serial Gold Bonds, and ever 60% of the stock of the Texas and Pacific Railway Company. The New Orleans, Texas & Mexico Railway Company in turn owns all the stock of the International Great Northern Railroad Company. Including these companies, and their subsidiaries, the system operated by the Company aggregates 12,357 miles.

Earnings: The gross income of the Missouri Pacific Railroad Company for the year ended December 31, 1926, and applicable to payment of interest on the finded debt and other fixed charges before Federal Income Taxes, amounted to \$24,530,000, while such charges, after giving effect to the present financing, amount to \$15,181,000.

Application will be made in due course to list the bonds on the New York Stock Exchange.

Corporation: Oklahoma Natural Gas Corporation, a Maryland corporation acquired in the latter part of 1926 substantially all the assets of Oklahoma Natural Gas Company, Kingwood Pipe Line Company, Southern Gas Company and substantially all the stock of Okmulgee Gas Company. and constitutes one of the largest natural gas systems in the United States, serving either directly or indirectly approximately 86,330 customers in 44 communities. The population of the counties in which the lines of the corporation are located is over 1,200,000, and of the territory served over 400,000, including the cities of Tulsa, Sapulpa and Okmulgee, served at retail, and Oklahoma City, Muskogee and Guthrie at wholesale.

Security: The indenture under which the first mortgage 6 per cent Gold Bonds series A have been issued, constitutes, in the opinion of counsel, a first mortgage on the entire fixed properties of the corporation.

Property: The Corporation's properties include: Leaseholds on more than 125,200 acres, or which over 100,000 acres are proven natural gas reserves; gas purchase contracts covering about 101,935 acres of additional proven reserves; over 1,800 miles of transmission and distribution lines. and 9 modern compressor stations. These properties contain over 430 producing wells with an open flow capacity in excess of 2,000,000,000 cubic feet.

Messrs. Weld and Liddell, engineers, estimate that from the above properties, and the development of potential resources in other territories (situated in part near existing pipe lines) which may be covered by additional leases and gas purchase contracts, there should be available to the corporation natural gas reserves sufficient for its requirements for a minimum of 20 years.

Ford, Bacon & Davis, Incorporated, have appraised the reproduction cost new, less depreciation, of the properties at \$26,956,564, as of March 31, 1926, without giving effect to any value attaching to gas purchase contracts, good-will or other intangible items

The titles of Oklahoma Natural Gas Corporation to the mortgaged properties have been passed upon by Messrs. S. W. Hayes and D. A. Richardson, Attorneys of Oklahoma City, Oklahoma.

Consolidated net earnings for the years ended December 31, of the properties now owned by the corporation available for interest, reserves for renewals, replacements and depletion, and federal taxes, based upon an audit from January 1, 1924, to April 30, 1926, and aggregate review of the counts for the calendar years 1922 and 1923 as prepared by Messrs. Arthur Anderson & Co., and earnings as reported by the corporation for May through November, 1926, have been as

\$3,267,700

\$2,915,981

\$2,766,145

\$1,979,670

(*) 12 months ended November 30, 1926, Net earnings as above for the 12 months ended November 30, 1926, are equivalent to over 3.6 times, and for the 4 years and 11 months ended November 30, 1926, average more than 2.8 times the annual interest charges on the \$15,000,000 first mortgage bonds outstanding.

Legal matters in connection with the issuance of these bonds have been passed upon by our counsel, Messrs. Cotton and Franklin, New York, and Messrs. Wing & Russell, New York, except filles of the corporation to its properties, which have been passed upon by Oklahoma counsel. It is expected that delivery will be made in the form of Definitive Bonds on or about February 9, 1927.

AXES USED IN SLAYING OF FATHER

Mother Admits Killing Husband With Aid of 12-Year-Old Daughter

CLEVELAND, Feb. 2. (P)—Anton Liszka, 38 years of age, was hacked to death with area wielded by his daughter, Elizabeth, 15, and his wife, Anna, 26, today because, they said, they were "atraid he would kill us."

The wife, in teiling police of the killing, said she struck the first blow with a long-handled woodman's ax and her daughter aided her with a hatchet.

Mrs. Liszka said her husband had been whipping her and their three children, Elizabeth, Antoinette, 16, and Victoria, 14, and that the latter was forced to leave home. She told police that during the night she awakened her husband and caked him to get her a drink. He refused and quarreled with her for waking him. Later she said she got up and while returning to bed stumbled over an ax. Fearing her husband meant to kill her she awoke Elizabeth, who obtained a hatchet.

"I'm sorry I did it." she told police. "but I feel my children areasfer. My heart is lighter for my children live. My husband had been drinking and abusing us so that we all feared for our lives."

Quarter-Million Endowment for Cancer Control

NEW YORK, Peb. 2. (/P)-A condi-NEW YORK, Peb. 2. (P)—A conditional gift of \$250,000 for cancer control pledged by R. Fulton Cutting today brought the American Society for the Control of Cancer to within approximately \$350,000 of its \$1,000.000 endowment fund goal.

Thomas W. Lamont announced the gift at a luncheon given at the Bankers' Club by Owen D. Young and Mr. Aldrich, chairman of the wocisty's finance committee.

Publicity is the most important feature of the cancer problem at present, Dr. George Emerson Erewer.

DIABETES is a disease which is recognized as a failure of oxidation; that is, a failure to oxidize carbohydrates. Carbohydrates represent the sugar and starches of our food, and

constitute the greater portion of what we eat. The failure to oxidize and digest carbohydrates

The failure to oxidize and digest carbohydrates is obviously a most serious matter to the diabetic. Either he completely loses the food through its appearing as sugar in the urine, or, what is still more serious, the sugar accumulates in the tissue cells and constitutes toxic material. Therefore, the diabetic is partially starved and partially poisoned when he eats carbohydrates. For instance, he cannot digest fats at all unless he eats a percentage of carbohydrates.

CAUSE OF DIABETES: The direct cause of

diabetes is the failure of the pancreas to secret insulin, a substance which digests or oxidizes the augar. While insulin is now given to dia-

betic patients hypodermically, it is in no sense a cure. It is merely a crutch. Moreover, the

operation of being punctured once or twice a day for the rest of one's life is not an agreeable

THE I-ON-A-CO: The I-ON-A-CO, however,

through the influence of magnetism upon the iron in the body, promotes normal oxidation.

In a great many cases, patients who have taken I-ON-A-CO treatments have been able to increase the consumption of carbohydrates considerably without any ill effects.

Delightful FREE Treatment

However, the best proof of the I-ON-A-CO's efficacy in the treatment of diabetes is results. And you can experience those results for yourself. Visit us. Take a delightful 10-minute treatment. There will be no charge. You will not be obligated. You have nothing to lose, everything to gain. Surely, the test is worth making.

Custody Following Story of

Adopted Daughter

A question as to whether it is legal for a man to marry his adopted daughter, asked yesterday over the telephone, brought about the arrest of Joseph Wagner, 86 years of age, of 348 North Avenus Twenty-ons, according to Capt. Marden at Central Police Station. Wagner was booked on suspicion of a felony, and his fester daughter. Dorothy Wagner, 16, was taken in charge by juvenile authorities.

Soon after the question was asked of the police, Capt. Marden said, Dorothy Wagner appeared at the station and inquired if such an inquiry had been made.

"I'm the adopted daughter," she was quoted as saying, "and I don't want to marry him."

Questioning by officers, it was said, hrought out a sordid story and a statement by the girl that Wagner beat her when she went out with boys of her own age. Wagner and his wife adopted the girl in Chicago when she was 4 years of age, the police said they learned, and Mrs. Wagner and did also they learned, and Mrs. Wagner, on the advice of his counsel, S. S. Hahn, refused to make any statement.

Bishop Charles B. Locks of the St. St. Psul Methodist Area, spoke before the conference last night on "In-stincts Derived From Divine Power." More than 300 persons attended the meeting.

DIVINE GIFTS

The homing pigeon was pointed our by Bishop Locks as an instance of divine gifts being vested in bird intelligence. The motherly instincts of wild animals, including the lion and tiger toward their young, are of divine origin, the speaker said.

Bishop Locks briefly dwatt on evolution saying that the bodies of men, birds and animals are as they were originally created by God. The soul goes on, he said, through the ages, but it is unchanging.

Yesterday's passions closed the conference in Los Angeles. Beginning at 10 a.m. today all-day sessions will be conducted at the First Fresbyterian Church at Frandena. Tomorrow's sessions starting at 2:30 a.m. will be at the First Congregational Church at Long Beach.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, brunchits and other forms of respiratory diseases, and is excellent for building up the system after colds of the most of the cold in the results and other forms of respiratory diseases, and is excellent for building up the system after colds of the forms of the treatment of persistent coughs and colds, bronchial asthma, brunchits and other forms of respiratory diseases, and is excellent for building up the system after colds of the forms of the

Well, its a great thing to be the life of the party even if it is just a radio party. Which is by way of saying that the KMTR' slogan, "The Echoes of Hollywood" has been relegated to the junk heap for their new station trade mark, "The Life of Hollywood."

few know why it is called the "palace bungalow."

All 'of radiciand will be sorry to know that Yankse, the wonder canary that whistled a tune, died early this week but thousands will be giad they saw the bird prodigy two weeks ago at the Canary Show.

Among the KHJ visitors of the week from far away places was Capt. Arthur Skelborne, master of a passenger ship which plies from Vantouring the summer months. Capt. Skelborne is a famous Canadian rifleman, holder of many medals from the Vancouver Hife Club, and has often heard KHJ programs in the far north. On Tuesdays and Thursdays at 8:40 WGM is sending out a new feature called. "Over the Hills and Faraway," which brings to radiciand the folk songs of all nations.

Badio fans scon will hear a new local station when B. O. Heller transfers his KFKS, of 1000-wat capacity but operating on 500 with wavelength of 203 meters, from Big Bear Lake to the roof of the Commercial Exchange Building in Los Angeles. Exchange Building in Los Angeles. The new cell letters will be KPLA. the towers are now being erected and present plans call for the initial program the evening of March 1. The studio will be located on the thirteenth floor and a group of local capitalists are financing the station as a commercial station owned and operated by Mr. Heller, who will be remembered as the engineer if charge of the old Hamburger set in 1920 and later of KWH and of a KFI remote control transmitting outfit.

From 9 to 10 tonight over KNX radio fans will hear a fine program by the Women's Symphony Orchestra, under the direction of Henry Schoenfeld, via one of the remote control lines. This is an unusual organization, the members of which pay dues to belong and is not organized for profit. A splendid musical treat is in store for listeners tonight.

At 8 this evening KGO will produce a comic opera, The Chimes of Normandy," (Bells of Corneville.)

at the Orange Grove, according to announcements from Louis O. Macloon.

Since purchasing the Pacific Coast rights to this comedy drams recently from Ernest McCauley of New York for approximately \$80,000, Macloon, aside from personally supervising the production of the new Music Box Revue, has been busily engaged in preparing an itinerary for the road tour of "One Man's Woman."

TWO GOOD POETRAYALS

Pat Harmon, character actor, is giving one of the best portrayals of his career in the role of the roistering mate of the pirste ship in Ralph Ince's new production "Breed of the See" at the Figueroa. He is also appearing in support of Harold Lloyd in "The Kid Brother" at the Millioh Dollar.

Miss Dagover was to have played apposite Emil Jannings in his cur-

rent Paramount picture; but after she arrived, it was decided to change her to another picture, due to the fact that she is a star in her own right, or at least has been so in Europe, and it seemed rather like wasting too much giory in one picture to show both these European stars in one feature. Largest 10meDelivered Circulation In Southern California

The Audit Bureau of Circulation is a nation-wide organization maintained by publishers and large advertisers to ascertain the exact facts about newspaper and magazine circulations.

The Audit Bureau of Circulation permits newspapers to segregate their home-delivered circulation from their street sales, and needless to say those newspapers having sufficient home-delivered circulation to reflect advantageously on themselves never fail to furnish this information.

The Los Angeles Times is the only Los Angeles morning newspaper which shows its home-delivered circulation in these official reports. The circulation of the Los Angeles Times is 96% homedelivered! It is the largest body of newspaper subscribers on the Pacific Coast and is concentrated within retail shopping distance of Los Angeles.

Professional Children Play Hosts at Gathering of Junior Members

King Hilarity and the Princess Joy uled the hi-jinks and cabaret of The ruled the hi-jinks and cabaret of The Times Junior Club given for members of the Players' Club who gathered in the clubrooms, 223 West Pirst street, last night. It was the first of a scries of festivities for the 500 members of the Players' organization of T.J.C., composed of professional children.

The older members of the club were waiters at the repast which preceded the impromptu entertainment by the club members. Aunt Dolly and her cohorts provided diaziling deco-

were waiters at the repast which preceded the impromptic untertainment by the club members. Aunt Dolly and her cohorts provided dazeling deconations in the T.J.C. colors, crimson and white, making a colorful back-ground for the Joyous occasion.

The Boros musical troups of four youngsters, provided the accompaniment for the terpstchorean festivities. And little Phill Cooper, 8-year-old who feel extraordinary, laser took the center of the floor. He was followed by Man Hall and Richard Lund, the harmony boys, and King Gates, diminutive buck-and-wing danger.

Among the other child professionals who provided emertainment at the hi-links were Frances Barto, the "child Patti;" Trixy Robinsett, tiny song-and-dance artist; Ty Parvis and Lillian Crowell, esingers, and Werkers Milnes of Orpheum fams. Others who entertained were James Osborne, vice-president of the T.J.C. and known as the 'Boy McCormick;" Bob Wickersham, Barney Fahringer and Lawrence Vall.

The Players' Club now has a membership of more than 800 professional child-artists. Aunt Dolly finds it nearly impossible to entertain the entire group at one time, so abs is scheroling a-series of Jolly times in the near future for the members of the club who were not present at last night's festive gathering.

The Players' Club is an integral part of The Times Junior Club, the entire group at one time, so abs is scheroling a-series of Jolly times in the near future for the members of the club who were not present at last night's festive gathering.

The Players' Club is an integral part of The Times Junior Club, the largest character-building club in the world, with a membership of 1,225,000 children.
